

 **PROTECT ADVANCED**

The background of the entire page is a teal gradient. On the right side, there are abstract, flowing white and light blue shapes that resemble liquid or smoke. A network of glowing cyan lines and nodes is visible, particularly on the right side, suggesting a digital or network environment. Numerous reflective, metallic spheres of various sizes are scattered across the right side, some appearing to be part of the network structure.

Endpoint protection against
ransomware and zero-day threats

eset PROTECT ADVANCED

- Cloud-based Console
- Endpoint Protection Platform
- Cloud Sandbox
- Full Disk Encryption

Protect your company computers, laptops and mobile devices with security products all managed via a cloud-based management console. The solution includes cloud sandboxing technology, preventing zero-day threats, and full disk encryption capability for enhanced data protection.

- Improved protection against ransomware and zero-day threats via cloud-based sandboxing technology.
- Helps comply with data regulation thanks to full disk encryption capabilities on Windows and macOS.
- Easily accessible ESET PROTECT console improves TCO of security management.
- Single-pane-of-glass remote management for visibility to threats, users and quarantined items.
- Company endpoints and mobiles are protected via advanced multilayered technology, including file server security, now with secure banking protection.

Digital security on a tight budget? ESET PROTECT Advanced On-Prem is available with onsite deployment of the security management console.

All ESET endpoint solutions are managed from a single-pane-of-glass cloud console, ESET PROTECT, ensuring a complete overview of your network.

IMPROVED RANSOMWARE PROTECTION AND ZERO-DAY ATTACKS SOLUTION WITH CLOUD SANDBOXING

ESET Dynamic Threat Defense provides proactive protection against zero-day threats, by executing all submitted suspicious samples in an isolated and powerful cloud sandbox environment, in order to evaluate their behavior using threat intelligence feeds, ESET's multiple internal tools for static and dynamic analysis, and reputation data.

- Behavior-based Detection
- Machine Learning
- Zero-day Threats Detection

MULTILAYERED ENDPOINT PROTECTION TECHNOLOGY

ESET Endpoint Security provides multiple layers of protection and can detect malware before, during, and after execution. Machine learning, advanced behavioral analytics, big data and human expertise work in dynamic equilibrium to balance performance, detection and false positives.

- Protect against ransomware
- Block targeted attacks
- Prevent data breaches
- Stop fileless attacks
- Detect advanced persistent threats

POWERFUL ENCRYPTION MANAGED NATIVELY BY ESET PROTECT

ESET Full Disk Encryption is a feature native to the ESET PROTECT management console. It allows one-click deployment and encryption of data on connected Windows and Mac endpoints.

ESET Full Disk Encryption significantly increases your organization's data security and helps you comply with data protection regulations.

- Manage encryption on Windows and macOS machines
- Encrypt system disks, partitions or entire drives
- Deploy, activate and encrypt devices in a single action

CLOUD-BASED REMOTE MANAGEMENT CONSOLE

ESET PROTECT is a cloud-based, multifunctional remote network security management tool for ESET business security products across all operating systems. It enables one-click security deployment and gives you network visibility without the need to buy or maintain additional hardware, reducing the total cost of ownership.

- Setup and deployment within minutes
- No need for additional hardware or software
- Single point of network security management
- Accessible safely via web browser from anywhere

About ESET

For more than 30 years, ESET® has been developing industry-leading IT security software and services, delivering instant, comprehensive protection against evolving cybersecurity threats for businesses and consumers worldwide.

ESET is privately owned. With no debts and no loans, we have the freedom to do what needs to be done for the ultimate protection of all our customers.
